

# FLYNN GROUP OF COMPANIES

Total Building Envelope

The Flynn brand is built on more than 35 years of experience in providing and installing new and replacement roofing systems. Whether your project is straightforward or complex, whether it's a single-ply, liquid-applied, or a modified bitumen system, we have the experience and expertise to deliver a top-quality project that meets your design specifications.

Our expertise in production roofing (new construction and re-roofing) and roofing service is supported by our 20 offices coast to coast. This ensures the best results for you, regardless of the roofing application and site location. In addition to our own rigorous quality standards, we adhere strictly to the guidelines set out by the Canadian Roofing Contractors' Association.
