

# ENTERPRISE FLEET MANAGEMENT AND CRCA: TOGETHER WE'RE BETTER.

## It Pays to Partner with Enterprise

**Enterprise has saved more than \$1 Million dollars in new vehicle acquisition alone for CRCA members!**

In addition, Enterprise Fleet Management helps lower all transportation expenses by acting as an outsourced fleet department for members. Reduce downtime, company liability exposure and improve your company's image through new, branded, well-maintained vehicles.

## Vehicle Acquisition

With 2 million vehicles under management, Enterprise is the largest vehicle purchaser and re-seller in the world. The expertise required to manage such a fleet can benefit your company with advantages like:

### VOLUME DISCOUNT PRICING

Enterprise can frequently negotiate better deals than a company buying just a handful of vehicles.

### GREATER VEHICLE SELECTION

Your drivers will enjoy a better selection of cars, SUVs, trucks and vans through our contacts with manufacturers and network of coast-to-coast dealers.

### FLEXIBLE FUNDING OPTIONS

Whether you buy with cash, lease or finance, Enterprise can develop a funding program that's right for you. With flexible terms and depreciation, and fixed or variable costs, we can develop a vehicle acquisition plan that will make the most of your company's capital.

### MAXIMUM RESALE VALUE

When building your fleet, Enterprise looks for vehicles with better than average resale value. We're experts at appraising and anticipating the future value of a vehicle. Our remarketing efforts move over 500,000 vehicles a year. Down the road, when you're ready to resell, you'll get the maximum value from your fleet.

## Fleet Management

Leave the hassles, costs and inefficiencies of a self-managed fleet behind.

### NO SURPRISES, COMPREHENSIVE VEHICLE MAINTENANCE

Our fixed-cost maintenance plan is a great way to simplify your fleet budget. You pay the same amount monthly, and Enterprise pays the actual maintenance expense, from replacing windshield wipers to rebuilding transmissions.

### CONSOLIDATED EXPENSE CONTROL

Our fuel card is accepted at nearly all stations and major oil companies nationwide, making it quick and easy for your drivers to refuel. Each month, your company receives a single report detailing all of your drivers' charges.

### PROFESSIONAL CLAIMS ASSISTANCE

If one of your fleet vehicles is involved in an accident, our nationwide network of loss control coordinators will handle the claim and help you obtain the most favorable settlement.
